Professional Summary

I am Abobakr Ayman Hassan, a student who received an excellence scholarship at the Faculty of Engineering, Department of Communications and Information, Sinai University. I am deeply passionate about programming and love working in this field. My specialization is as a Full Stack Developer, and I have knowledge of programming languages such as HTML, CSS, JavaScript, React.js, Next.js (as a Front End), Node.js, Angular, and C++ (as a Back End).

Work Experience

Full Stack Web Development | 2020-2024

Egypt Digital Pioneers Initiative

- Achieved a success rate of 95% through studying in this initiative, which led to an understanding of programming languages in an understandable and smooth manner.
- Many methods have been applied to solve the problems facing anyone, which reduced the problems I am facing by 20%.
- Develop policies to work on a project in an easy and simple way, enhance work understanding and highlight the transparency of the project that it is working on.
- Customer management and 100% customer satisfaction.

Academic History

Faculty of Engineering, Sinai University | 2022-2027

Department of Communications and Information Technology

- Students are taught basic principles of communication, such as information theory, signals theory, and systems theory.
- Students learn to design, build, and manage various types of networks, such as computer networks, mobile communications networks, and fiber optic networks.
